Visi-Barrier® Tunnel PRECAST POLYMER CONCRETE BARRIER PANEL

All-Weather Retro-reflective Safety Barrier

Visi-Barrier® is a highly visible barrier and strong stay-in-place form ideal for bench and wall panels. The precast polymer concrete barrier is available in modified shapes and provides extreme protection against corrosion and impacts.

Visi-Barrier® can be custom designed to fit a variety of tunnel characteristics depending on the engineering plan and design. Each installation meets the highest safety standards and provides the best solution for tunnel wall protection.

Transpo has extensive experience in tunnel preservation projects:

- Lehigh Tunnel, Pennsylvania Turnpike
- Blue Mountain Tunnel, Pennsylvania Turnpike
- Allegheny Tunnel, Pennsylvania Turnpike
- Cumberland Gap Tunnel, Kentucky/Tennessee
- Ted Williams Tunnel, Massachusetts DOT
- Liberty Tunnel, Pennsylvania DOT
- Callahan Tunnel, MTA Bridges & Tunnels
- Queens Midtown Tunnel, MTA Bridges & Tunnels
- Brooklyn Battery Tunnel, MTA Bridges & Tunnels

Visi-Barrier[®] is a high visibility panel for driver safety. A sustainable solution for new and aging tunnel bench walls, offering corrosion and impact protection

SAFER TRANSPORTATION THROUGH INNOVATION

Visi-Barrier[®] PRECAST POLYMER CONCRETE BARRIER PANEL

Features and Advantages

- Acts as a permanent, stay-in-place barrier form
- Retro-reflective Visi-Stripe[®] gives high visibility in all weather conditions
- Available in various standard safety shapes
- Can be custom fabricated to meet project requirements
- State-of-the-art precast polymer concrete
 - · Gel Coat Resists salts, chlorides and corrosion

Applications

Visi-Barrier[®] is available in standard and custom sizes and colors to suit a variety of applications including:

Median Barriers:

Visi-Barrier[®] helps form a full or half New Jersey type or F-shape stay-in-place permanent barrier.

The precast polymer concrete barrier is available in modified shapes for use on bench walls offering corrosion and impact protection.

Rail Post Retro-reflective Stripe Threaded J-Bolt Top Top

Bridge Parapets and Rails:

Visi-Barrier[®] can be custom designed to fit a variety of bridge site characteristics. Length, height, and shape of the barrier are varied depending on the projects and design.

Each installation meets the highest safety standard and provides the best solution for protecting bridge parapets and rails.
